Perps

About fees and some details

Funding(Hour): Funding Fee hourly rate, charged per second on position size. Positive=Long pay, Short earn
Negative=Short pay, Long earn

Principal: Principal is the total capital invested, including fees, when opening a position

Initial Margin: Initial Margin is the margin initially allocated to this position. $\text{Initial Margin} = \text{Principal} - \text{Open Fee}$

Entry Price: In order to protect the price from being manipulated, the Entry Price of the market order will use $\text{Mark Price} \pm \text{Spread}$ to open the position. The Sell slippage for BTCUSD is 0.01%

Perps

Liq.Price: The position will be liquidated when the initial margin (after deducting the fee) reaches a loss of 90% (Each pair will be slightly different, depends on liquidity)

Open Fee: Open fee = $0.08\% * \text{your position size}$

Close Fee: Close fee = $0.08\% * \text{your position size}$

Net Profit: Net Profit is the profit and loss obtained after taking into account the trader's principal and trading fees.
Net Profit = Realized PNL - Open Fee - Close Fee

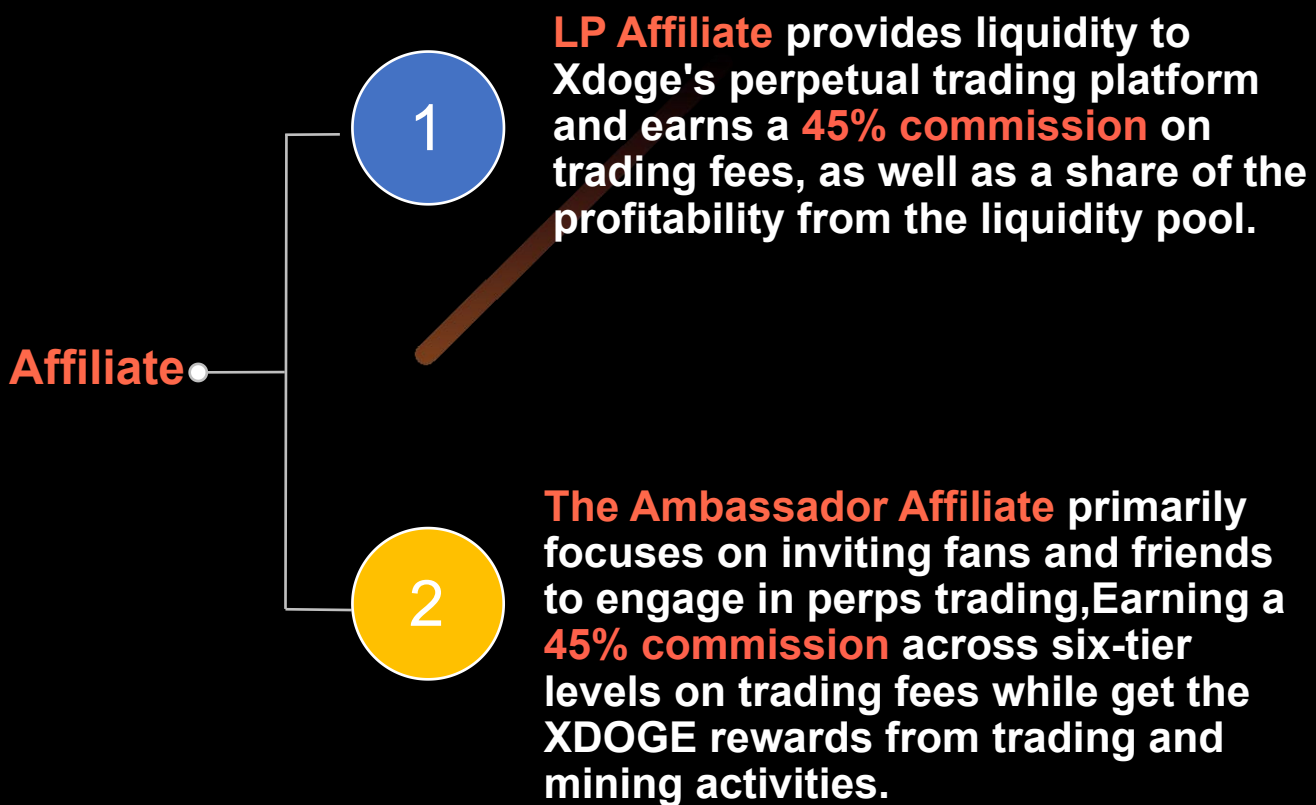

Realized PNL: Realized PNL only calculates the profit and loss generated after the position is successfully opened.
Long : Realized PNL = $(\text{Close Price} - \text{Entry Price}) * \text{Qty} + \text{Funding Fee}$
Short : Realized PNL = $(\text{Entry Price} - \text{Close Price}) * \text{Qty} + \text{Funding Fee}$

Realized ROI: Realized ROI = $\text{Realized PNL} / \text{Initial margin} * 100\%$

Affiliate

Xdoge's Affiliate program is divided into two categories: **LP Affiliate** and **Ambassador Affiliate**.

LP Affiliate

Becoming an LP Affiliate for XDOGE is very straightforward. You simply need to go to the XLP trading interface and **purchase XLP(it is a liquidity providing lp token)** to provide liquidity for perps, thereby becoming an LP Affiliate.

Becoming an LP on the XDOGE perps exchange provides liquidity to market trading and offers excellent ETH trading fee rewards. With every transaction users make, there's generated profit. The XDOGE perps Exchange boasts a fantastic business model.

The LPs on the XDOGE perps Exchange are building an LP fund pool, providing liquidity for perps trading. The well-designed XDOGE perps Exchange ensures steady profits, resulting in long-term stable earnings.

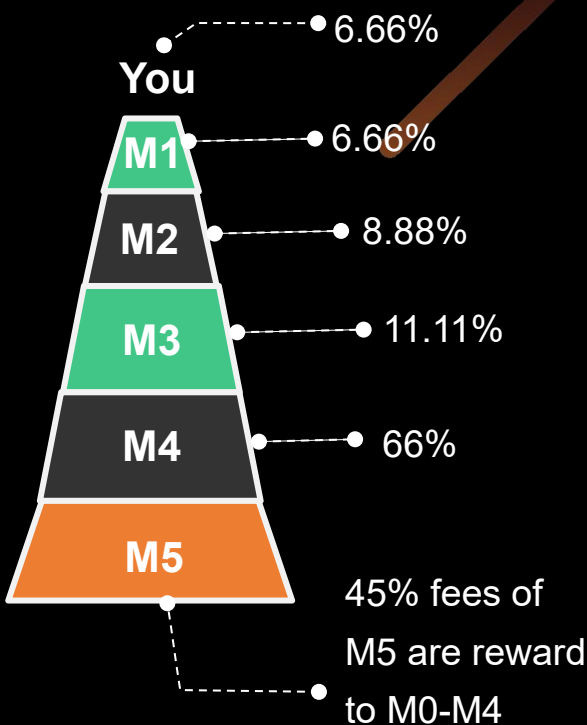

The XDOGE perps Exchange employs a 48-hour LP exit mechanism, allowing LPs to seamlessly enter or exit. Additionally, the XDOGE exchange incorporates various security measures such as oracle pricing and position limits, ensuring the safety of LPs' interests.

Ambassador Affiliate

Ambassador Affiliate earn commission by inviting friends to complete perps trading. Ambassador Affiliate will benefit from a six-tier commission structure.

This means that not only can you earn commissions from direct referrals, but you can also benefit from commissions generated by other ambassadors you introduce, as well as those referred by them.

Assuming the invitation relationship is M0 -> M1 -> M2 -> M3 -> M4 -> M5. herefore, 45% of the fees generated by M5 will go to the inviter.

Within this portion of the fees, 66.66% will be allocated to M4, 11.11% to M3, 8.88% to M2, 6.66% to M1, and 6.66% to M0.

This multi-tiered commission structure can significantly increase your potential earnings.

Fair Launch

Fair Genesis

At the beginning of XDOGE's inception, the community committed to upholding principles of fairness, transparency, and inclusivity.

Everyone had an equal opportunity to participate and share in the success of this great community. Team members, like everyone else, started with 0 tokens and could only acquire them through the market following fair rules.

Decentralized

The community injected 30% of the tokens and 5 ETH into the UniSwap as initial liquidity. To safeguard the interests of all participants, this operation was planned to be executed in two phases, with the private keys eventually being completely destroyed, ensuring a fair and secure genesis.

AirDrop

XDOGE is a utility token. Apart from the 30% of tokens used for a fair launch, **20% of XDOGE tokens will be airdropped to ARB holders or addresses on the base chain with a balance of >0.01ETH.** It's essential to note that the earlier you claim the rewards, the more you'll receive!

XDOGE transactions are tax-free, and it has its own created Perps Dex, 45% perps fees is allocated to reward liquidity providers-LP affiliate, 45% is allocated to reward ambassador affiliate, 10% is used to buy back XDOGE for burning.

XDOGE also implements an invitation reward mechanism, where you can invite eligible friends to claim the airdrop, and you'll receive additional rewards.

XDOGE's Zero

XDOGE is essentially a social experiment commencing with a clean slate, where every aspect originates from a point of absolute zero.

Start from zero;
Return to zero;
Eradicate zero;
From zero to zero;

This experiment is rooted in fairness. The Genesis team possesses zero tokens, aligning perfectly with our motto: "Eradicate zero or return to zero!"
